

NEW IN STOCK

NEW ADDITIONS TO THE 83 SERIES

The 83/45 padlock was the first lock in the 83 family introduced more than 5 years ago. It replaced the 80/45 and 81/45 by utilizing the "Z-Bar" which converts the padlock between key retaining and non-key retaining. Along those 5 years the 83/45 has constantly been improved to become the most popular brass re-keyable padlock with locksmiths everywhere. Each 83/45 is shipped with the cylinder of choice and a 1" high steel shackle. Other shackle lengths need to be ordered separately
